### Bodleian Library Special Collections

Moves of special collections into the Weston Library will take place until summer 2016 as material currently stored at other locations is transferred. During this period items can still be ordered as normal but please be aware that material may take up to 24 hours to arrive in the reading room and, on occasion, entire collections will be unavailable for up to 2 weeks whilst they are relocated.

For more information please see [Where to consult Special Collections](#) or email [specialcollections.bookings@bodleian.ox.ac.uk](mailto:specialcollections.bookings@bodleian.ox.ac.uk) to book material.

[NLM MeSH Homepage](#)

1. A list of subject headings matching what you've typed into the box will be displayed

2. Select the appropriate subject heading and click on Add to search builder

3. Search for articles tagged with the subject heading by clicking on Search PubMed

The screenshot shows the MeSH (Medical Subject Headings) search interface. At the top, there is a search bar with 'smoking' entered. Below the search bar, a list of search results is displayed. The first result is 'Smoking', which is highlighted in blue. A red arrow points from the first annotation box to this result. The second result is 'Smoking Cessation', which is also highlighted in blue. A red arrow points from the second annotation box to the 'Add to search builder' button in the PubMed Search Builder panel on the right. The third annotation box points to the 'Search PubMed' button in the same panel. The PubMed Search Builder panel shows the selected term 'Smoking Cessation' [Mesh] and the search query '"smoking" [MeSH Terms] OR smoking [Text Word]'. The search results list includes the following items:

- 1. **Smoking**  
1. Inhaling and exhaling the smoke of burning TOBACCO.
- 2. **Smoking Cessation**  
2. Discontinuation of the habit of **smoking**, the inhaling and exhaling of tobacco smoke.  
Year introduced: 1992
- 3. **Marijuana Smoking**  
3. Inhaling and exhaling the smoke from CANNABIS.  
Year introduced: 1988
- 4. **Tobacco Use Cessation Products**  
4. Items used to aid in ending a TOBACCO habit.  
Year introduced: 2012
- 5. **Tobacco Smoke Pollution**  
5. Contamination of the air by tobacco smoke.  
Year introduced: 1982

A list of articles tagged with the subject heading "Smoking Cessation" will be displayed

Don't start looking at these now. We're going to look at searching for keywords in title & abstract. Click on Advanced

Abstract

We largely agree with the discussion points in the letter by Donzelli regarding our recent article demonstrating significantly decreased odds for smoking abstinence among smokers who ever used e-cigarettes and his caution about using e-cigarettes. However we do not agree that they can be used to replace frontline medically assisted efforts because they are not regulated products. The US Prevention Services Task force made a similar decision.<sup>1</sup> It is rather reassuring that all observational studies, including ours, that used a powerful cohort design reached similar conclusions about e-cigarette use not predicting quitting among smokers. One of the causality guidelines by Bradford Hill is the reliability of an association across multiple studies and populations. (Am J Public Health. Published online ahead of print September 17, 2015: e1. doi:10.2105/AJPH.2015.302896).
